

EDUCATIONAL COACHES PRIVATE HOME SCHOOL

Educational Coaches Private Home School is a hands-on, project-based learning environment for children in grades K-12. We provide a safe, educational environment where all students are valued and promote education as an important entity in life.

Three things that today's students need to flourish:

- ✓ Belief system: this is how we do it
 - ✓ Place to belong: respect
 - ✓ Someone to believe in them

For our K-8 students, we align with the Virginia Standards of Learning for our basic curriculum and use a variety of textbook and online publishers. The school day for students in grades K-8 is Monday through Friday 8-3. The school year runs concurrent with Chesapeake City Public Schools, but we reserve the right to extend the school year if the student does not finish his/her curriculum within the regular school year.

For students in grades 9-12, we will work with the student and parents to design the best curriculum possible for each student as we provide instruction in all core courses required for graduation by the Virginia Department of Education. As a result, we can offer a variety of packages from which to choose and have the flexibility to tailor the schedule to meet the individual student's needs. The definition of a coach is someone who takes you from where you are to where you want or need to be. All of our coaches are experienced, licensed and certified. We offer direct instruction and support for all of our students to ensure their success. Educational Coaches will complete and file all school division *Intent to Homeschool* forms as a tutor 2a status and provide licensure as required.

Educational Coaches will provide a quarterly report card for all students and a yearly transcript for all high school students.

Many school divisions require standardized test results as a part of the compliance for home school students. Educational Coaches has certified testing administrators to administer the Stanford 10, IOWA and WRAT 4 tests. Parents will be given the results to provide to their local school divisions, as required by Virginia State Law.

We know that working as a team with parents and students that we can provide an outstanding education for all students. We strive to teach all students as "gifted" because each student truly has individual gifts that we can enhance. We also encourage *Confidence*, *Competence* and *Comprehension* with teachers who are *Compassionate*.
