LEGO® ROBOTICS CAMP

June 26 - 29

Utilizing LEGO® Mindstorms™ technology, both girls and boys will be given opportunities to celebrate science and technology using real-world context and interactive hands-on experimentation. Using LEGO® pieces, sensors, motors, and gears, camp participants will engage in engineering and computer programming principles as they construct and program unique robot solutions to accomplish various tasks. Campers will experience programming from low entry level to a “high as the sky” level. While focusing on science and technology, campers will have opportunities to develop critical thinking, problem-solving, and teamwork skills.

Students in grades 3 – 6 are eligible.

Project Managers:

Karen Arnett and John Sammons

SUMMER ART INSTITUTE

July 3 - 6

Get those creative juices flowing in this exciting art camp! Students will work with a variety of art mediums. There will be a culminating art show on the last day of camp.

Students in grades 1 – 6 are eligible.

Project Manager:

Faye Pledger

MATH CAMP

July 10 - 13

This camp will focus on providing additional instruction and extra practice in basic skills – addition, subtraction, multiplication, and division of whole numbers, fractions, and word problems. Rising third and fourth graders will focus on multiplication. The students will use a hands-on approach with technology integration to develop an understanding of the content.

Students in grades 1 - 6 are eligible.

Project Managers:

Andrea Perry and Kim Lavelle

STEM CAMP

July 17 - 20

In this project-based camp, students will use an integrated approach to learning using rigorous academic concepts coupled with real-world lessons. Students apply Science, Technology, Engineering, and Mathematics (STEM) that make connections between school and the community.

Students in grades 3 – 6 are eligible.

Project Manager:

Kellie Lemm

WRITING CAMP

July 24 - 27

This camp is designed to increase student achievement in creative writing. The 6+1 Traits® of Writing is an analytical model for assessing and teaching writing. It consists of 6+1 key qualities that define strong writing. These are: Ideas, Organization, Voice, Word Choice, Sentence Fluency, Conventions, and Presentation. Students will have experience writing different types of essays: narrative, persuasive, and descriptive using a variety of graphic organizers. Older students will have an opportunity to use the VDOE online writing tool website.

Students in grades K-6 are eligible.

Project Managers:

Andrea Perry and Kim Lavelle
